AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1.   (Canceled)

2.   (Previously Presented) The method of claim 58 wherein the correlated information is provided to the potential positionee for review.

3.   (Canceled).

4.   (Previously Presented) The method of claim 58 wherein the actual qualifications comprises a skill of the potential positionee.

5.   (Previously Presented) The method of claim 58, wherein the positionee information is maintained confidential.

6.   (Previously Presented) The method of claim 58, wherein the positionee information further comprises contact information for receiving communication.

7.   (Previously Presented) The method of claim 58 wherein the positionee information further comprises veteran information.

8.   (Previously Presented) The method of claim 58 wherein the positionee information further comprises transportation information for position site availability.

9.   (Previously Presented) The method of claim 58 wherein the positionee information further comprises work history information.

10.   (Previously Presented) The method of claim 58 wherein the positionee information further comprises education information.

11.   (Previously Presented) The method of claim 58 wherein the actual qualifications further comprise at least one skill selected from a positionee skills listing.

12.   (Previously Presented) The method of claim 58 wherein the positionee information further comprises at least one position category and the actual qualifications further comprise at least one skill relating to the position category.

13.   (Previously Presented) The method of claim 58 wherein the positionor information further comprises position or entity information.

14.   (Canceled)

15.   (Previously Presented) The method of claim 58 wherein the positionor information further comprises positionor contact information.

16.   (Canceled).

17.   (Previously Presented) The method of claim 58 wherein the positionor information further comprises salary information required for the position.

18.   (Previously Presented) The method of claim 58 wherein the positionor information further comprises benefits information for the position.

19.   (Previously Presented) The method of claim 58 wherein the positionor information further comprises site location information for the position.

20-22. (Canceled)

23.   (Previously Presented) The method of claim 58 wherein the positionor information comprises special programs participation information.

24-53. (Canceled)

54.   (Currently Amended) A computer program for matching a potential positionee

and a potential positionor for a position with the potential positionor, comprising:

a code segment for providing the potential positionee with a positionee information entry

interface for electronically entering positionee information comprising the potential positionee's

actual qualifications, the positionee information being stored in a database;

a code segment for providing the potential positionor with a positionor information entry

interface for electronically entering positionor information comprising at least one a plurality of

predefined target qualifications for [[a]] the position, wherein the interface is further configured

to receive an indication from the potential positionor that one or more of the plurality of

predefined target qualifications is a required qualification or a nice to have qualification, and for

storing the positionor information being stored in the database;

a code segment for determining whether the positionee information correlates with the

positionor information;

a code segment for creating a correlated information list of correlated information

comprising a list of potential positionees having target qualifications which correlate with all of

the required qualifications and ranked by at least the nice to have qualifications, and for allowing

each potential positionee to remove their name from the correlated information list of potential

positionees; and,

a code segment for providing the correlated information list of potential positionees to at

least one potential positionor for review.

55-57. (Canceled)

58. (Currently Amended) A method of matching a potential positionee and a potential

positionor for a position with the potential positionor, comprising the steps of:

receiving positionee information comprising the potential positionee's actual

qualifications, the positionee information being stored in a database;

receiving positionor information comprising at least one a plurality of predefined target

qualifications for [[a]] the position, the positionor information being stored in the database;

receiving an indication from the potential positionor that one or more of the plurality of

predefined target qualifications is a required qualification or a nice to have qualification;

storing the positionee and positionor information in a database;

correlating the positionee information with the positionor information for creating a

correlated information list of correlated information comprising a list of potential positionees

having target qualifications which correlate with all of the required qualifications;

receiving a communication from the potential positionee to remove their name from the

correlated information list of potential positionees ;

ranking the correlated information based upon at least the nice to have the potential

positionee's qualifications; and,

displaying the correlated information to the potential positionor; and,

receiving a command to take a recruiting action, and in response to the command,

displaying the positionor information to the potential positionee.
